Daniel, Mann, Johnson, & Mendenhall (DMJM)
Los Angeles, California
[April 1995 - Jan. 2000]
Specification Editor/Manager - Los Angeles Office

Managed projects and reviewed two other in-house specification writers' work. Interfaced with project team for pertinent project information and scheduling.

Specification Writer

Co-authored DMJM2000 Master Specification System, an in-house master. Created more than 200 custom macros to better quality control the specification process. [The system is project manager friendly, rather than construction specifier oriented.] Also produced military specification using Specsintact software. Major projects included: Ontario International Airport, Fresno International Airport, Port of Los Angeles, 911, Harris Office Building, JPL Building #183, Carson City Correctional Facilities, Prado Dam, Korea International Airport Master Specification.

CAD Technical Support

CAD detail library for intranet. Developed prototype web application for storing and retrieving relevant CAD files. ASP, ADO, html, and MS Access were used.

Employee Profile application for intranet. Developed prototype web application of employee information using ASP, ADO, html, and MS Access.

VBA application using MS Outlook - Developed computer inventory, custom contact form, and survey application.

VBA application using AutoCAD and MS Word - Drawing and specification callout automation.

Generation of callouts used in drawings from Word documents.

Electrical Engineering Experience:

P2S Engineering

Long Beach, California

[Jan 2003 – June 2003]

Electrical Designer

Projects: Chaffy College Master Plan, CSULB Maintenance Yard Expansion, Biola University Library Expansion.
